

CAPABILITY STATEMENT // FEDERAL & MISSION SYSTEMS

MISSION INFRASTRUCTURE ENGINEERING.

NETWORK // CYBER // AUTOMATION // CLOUD // AI

COMPANY OVERVIEW

Vetrotac is a Service-Disabled Veteran-Owned Small Business (SDVOSB) providing IT consulting, network engineering, and cybersecurity services to defense and civilian federal agencies. Our engineer-led team brings senior-level expertise, industry certifications, and personnel with active DoD security clearances to each engagement. We deliver secure, compliant, mission-focused solutions that modernize and protect critical government infrastructure. Vetrotac supports agencies as a direct-award SDVOSB partner and as a trusted subcontractor to prime contractors.

01 // CORE COMPETENCIES

NET.01

NETWORK ENGINEERING

Resilient campus, WAN, data center, wireless, and mission-edge architectures.

BGP / OSPF / VXLAN / EVPN

SEC.02

CYBERSECURITY ENGINEERING

Zero Trust, segmentation, firewall architecture, DISA STIG hardening, and continuous compliance.

IDENTITY / POLICY / INSPECTION

AUTO.03

INFRASTRUCTURE AUTOMATION

Executable policy, configuration validation, drift detection, and controlled remediation.

PYTHON / ANSIBLE / APIs / IAC

INFRA.04

HYBRID INFRASTRUCTURE

Secure Azure, AWS, on-premises, and edge connectivity engineered as one operating system.

CLOUD / DATA CENTER / EDGE

AI.05

AI & OPERATIONAL INTELLIGENCE

Trusted AI infrastructure, AIOps pathways, governance, observability, and human authority.

AI READINESS / AIOPS / GOVERNANCE

FED.06

FEDERAL & MISSION SYSTEMS

Defensible architecture and modernization for federal, defense, and compliance-driven operations.

FEDERAL / DEFENSE / READINESS

02 // DIFFERENTIATORS

01 ENGINEERING-LED DELIVERY

Senior practitioners engage directly in architecture and execution.

02 SECURITY BY DESIGN

Identity, policy, segmentation, and evidence are engineered into infrastructure.

03 CONTROLLED MODERNIZATION

Change accounts for live operations, legacy dependencies, and mission continuity.

04 HUMAN AUTHORITY

AI and automation accelerate analysis while people retain accountable control.

03 // ACQUISITION DATA

LEGAL NAME

VETROTAC LLC

CAGE CODE

9U4C0

BUSINESS STATUS

SDVOSB

UEI

PKVTN6WXMH11

MISSION OUTCOMES

01 RESILIENT CONNECTIONS

02 DEFENSIBLE TRUST

03 PROVABLE SYSTEM STATE
